Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1- 4, 6-17, 19-23 and 29, drawn to method and system of testing an integrated circuit, classified in class 714, subclass 733.
- II. Claims 24-28, drawn to a wafer, classified in class 365, subclass 201.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case:

The invention in Group I is directed to method and apparatus for testing an integrated circuit, which does not need to include, for example, a wafer including: a plurality of integrated circuits that are configured for being separated apart by a subsequent cutting process, the plurality of the integrated circuits are at least partially electrically connected to one another.

The invention in Group II is directed to a wafer, which does not need to include, for example, taking at least parts of the integrated circuit out of operation after the parts have been tested by the self-test device; and

Subsequently, connecting the integrated circuit to an external testing device that performs a function selected from the group consisting of reading out results of the test and evaluating the results of the test.

Therefore, they are clearly directed to a different and independent invention.

Art Unit: 2138

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung My Chung whose telephone number is 571-272-3818. The examiner can normally be reached on Monday to Friday.
